Chairperson: Shinjiro Kobayashi  
Koji Asai | 15:00-15:48 Breast and Lung  
Chairperson: Hideki Matsudaira  
Masatoshi Kakihana |
| 15:50-16:00 | Closing Remarks: Akihiko Tsuchida |                                             |
Information of Special Lecture and Luncheon Seminar

Special Lecture 1
“The I.C.S. “GOOD OLD DAYS” and the I.C.S. Japan Section”
Date June 21, 2019 (Fri)
Time 6:00 pm ~ 6:30 pm
Venue “Comet”, Keio Plaza Hotel Tokyo 43rd Floor
Chairperson Ken Takasaki (Tokyo Women’s Medical University)
Speaker José Miguel Alvear (Past National President Ecuadorian Society of Surgery
Past National President Ecuadorian Academy of Medicine
Past World ICS First Vice-President
XXXIV ICS World Congress President)

Special Lecture 2
“Laparoscopic and Robotic Surgeries-Total Mesorectal Excision with Lateral Lymph Node Dissection-”
Date June 22, 2019 (Sat)
Time 10:25 am ~ 11:15 am
Venue “Fuji” (Room 1), Keio Plaza Hotel Tokyo 42nd Floor
Chairperson Takeo Sato (Department of Colorectal Surgery, Kitasato University)
Speakers Hiroyuki Egi (Department of Gastroenterological and Transplant Surgery, Graduate School of Bio-medical and Health Sciences, Hiroshima University)
Yasuo Sumi (Division of Gastrointestinal Surgery, Department of Surgery, Asahikawa Medical University)
Co-organized by Covidien Japan Inc.

Luncheon Seminar
“Serendipity in Research and Surgery”
Date June 22, 2019 (Sat)
Time 12:30 pm ~ 1:20 pm
Venue “Fuji” (Room 1), Keio Plaza Hotel Tokyo 42nd Floor
Chairperson Takehito Otsubo (St. Marianna University School of Medicine / Department of Gastroenterological and General Surgery)
Speaker Yoshitsugu Tajima (Department of Digestive and General Surgery, Shimane University Faculty of Medicine)
Co-organized by Johnson & Johnson K.K.

(*Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan*) |
| 3          | Fractal Analysis | Takashi Minochi  
(*Department of Frontier Surgery, Chiba University Graduate School of Medicine*) |
| 4          | Case of metastatic colon tumor of uterine cancer | Jun Kuroda  
(*Department of Gastroenterological Surgery, Tokyo medical university Ibaraki medical center*) |
| 5          | Metastatic colon cancer from lung cancer which was resected by laparoscopic colectomy: A case report | Gentarou Fukushima  
(*Tokyo Medical University, Department of Gastrointestinal and Pediatric Surgery, Tokyo, Japan*) |
6  Surgical strategies for ulcerative colitis in our institution
   Masaya Yokoyama
   *(Department of Frontier Surgery, Graduate School of Medicine, Chiba University, JAPAN)*

7  Usefulness of the CONUT score for predicting the risk of surgical site infections
   Yu Kuboyama
   *(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)*

8  A case of SMA occlusion effectively treated with preoperative thrombectomy that did not require intestinal resection
   Masaki Hiwatari
   *(Division of Gastroenterological and General Surgery, St. Marianna University School of Medicine, Japan)*

9  A case of the small intestinal malignant mesothelioma
   Takaaki Matsudo
   *(Department of Surgery, Todachuo General Hospital)*

10 Administering Ramucirumab and Nivolumab safely after inserting an intestinal stent, due to peritoneal metastasis of gastric cancer; a case report
    Naoki Orimoto
    *(Department of Gastrointestinal Surgery, Tokyo medical University, Japan)*

10:25～11:15  Special Lecture 2

Chairperson: Takeo Sato
*(Department of Colorectal Surgery, Kitasato University)*
Co-organized by Covidien Japan Inc.

Laparoscopic and Robotic Surgeries -Total Mesorectal Excision with Lateral Lymph Node Dissection-
Hiroyuki Egi
*(Department of Gastroenterological and Transplant Surgery, Graduate School of Biomedical and Health Sciences, Hiroshima University)*
Yasuo Sumi
*(Division of Gastrointestinal Surgery, Department of Surgery, Asahikawa Medical University)*
### 11:15〜11:55  HBP 1: Liver

**Chairperson:** Shigeyuki Kawachi  
(Department of Digestive and Transplantation Surgery, Tokyo Medical University  
Hachioji Medical Center)  
Mitsuhisa Takatsuki  
(Department of Surgery, Nagasaki University Graduate School of Biomedical Sciences)

14:20〜15:00  HBP 3: Pancreas
Chairperson: Shuji Suzuki
  (Department of Gastroenterological Surgery, Ibaraki Medical Center, Tokyo Medical University)
  Shugo Mizuno
  (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine)

21 Analysis of predictive risk factors for clinically relevant pancreatic fistula after laparoscopic distal pancreatectomy
  Yasuhiro Murata
  (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University)

22 Efficacy of peak Hounsfield units of the visceral fat area in predicting postoperative complications after pancreaticoduodenectomy
  Kosuke Hikita
  (Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center, Japan)

23 A Safe Technique for Laparoscopic Distal Pancreatectomy Involving Large Cystic Tumors
  Shintaro Kanaka
  (Department of Gastrointestinal and Hepato-Biliary-Pancreatic Surgery, Nippon Medical School, Tokyo, Japan.)

24 Treatment outcomes of arterial pseudoaneurysm after pancreatico-duodenectomy and its risk factor of patient death
  Hiroyuki Kato
  (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine)

25 The efficacy of induction chemotherapy for locally advanced pancreatic cancer, intended conversion surgery
  Daisuke Ban
  (Department of hepatobiliary and pancreatic surgery, Tokyo medical and dental university)
26 Surgery required for biliary tract infection with complex abscess formation after ERCP: a case report
Masato Yamazaki
(Department of surgery, Teikyo University Chiba Medical Center, Japan / Department of Endoscopy, Teikyo University Chiba Medical Center, Japan)

27 Successful Non-Operative Management for Type IIIb Blunt Liver Trauma with Posterior Bile Duct Injury: A Case Report
Kazushige Tsurui
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University, Japan)

28 A case of recurrent acute pancreatitis associated with pancreaticobiliary maljunction and concomitant intestinal malrotation
Kazuhiko Tsukuda
(Department of Surgery, Tohoku university, Japan)

29 Pancreatoduodenentomy for a patient with dangerous vascular anomaly; a case report
Naomichi Sasaki
(Department of Hepato-Biliary-Pancreatic Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)

30 Hiv Related Thrombocytopenia Undergoing Splenectomy By Hand Assisted Laparoscopic Surgery (hals). A Case Report
Shu Tanizawa
(Department of surgeon, National Hospital Organization Tokyo Medical Center)

15:50〜16:00 Closing Remarks
Akihiko Tsuchida (Department of Gastrointestinal and Pediatric surgery, Tokyo Medical University)
31 The role of disulfiram in the tumor progression of esophageal squamous cell carcinoma
Qian Li
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University, Japan)

32 Esophageal schwannoma treated via thoracoscopic enucleation with the patient in the prone position
Sojiro Kato
(Division of Gastroenterological and General Surgery St. Marianna University School of Medicine)

33 The concentration of soluble PD-L1 in the peripheral blood could be a useful biomarker for esophageal squamous cell carcinoma
Tadashi Shiraishi
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University, Japan)

34 HMGB1 is involved in the progression of esophageal squamous cell carcinoma
Daiki Matsubara
(Division of Digestive Surgery, Department of Surgery Kyoto Prefectural University of Medicine)

35 Upside down stomach: A case report
Yukiko Yamaguchi
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University, Japan)

36 Outcomes of treatment for reconstructed gastric tube cancer after esophagectomy
Wataru Takaki
(Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine, Japan)
A case of a resection of protein-losing gastric cancer
Yoshitsugu Tsukamoto

The frequency of cholelithiasis after laparoscopic gastrectomy and the significance of prophylactic cholecystectomy
Shouhei Fujita

A case of Dermatomyositis Complicated by Advanced Gastric Cancer
Yuki Amano

A case of gastric tube cancer successfully resected by laparoscopic surgery
Toshimasa Fujio

A case of advanced gastric carcinoma for which chemotherapy became possible by placing a peritoneovenoous shunt for cancerous ascites
Mizuho Aikawa

A case of advanced gastric cancer with para-aortic lymph node metastasis treated with chemotherapy followed by conversion surgery
Shun Yamaguchi

On thyroid function and adrenal function before administration of Nivolumab in gastric cancer
Moe Matsumoto

Effect of postoperative skeletal muscle loss and muscle quality on the prognosis of gastric cancer
Yuya Tanaka
45 Procedure and outcomes of gastrectomy with dissection of para-aortic lymph node for gastric cancer
   Yota Shimoda
   *(Department of Gastrointestinal surgery, Kanagawa Cancer Center)*

13:40〜14:20 Others 1
   Chairperson: Yoshihisa Saida
   *(Department of Surgery, Toho University Ohashi Medical Center)*
   Tetsuo Ishizaki
   *(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)*

46 Double Direct Inguinal Hernia
   Masahiko Kawaguchi
   *(Department of General Surgery, Yokohama Sakae Kyosai Hospital)*

47 Two cases of idiopathic intraperitoneal desmoid tumor with a rare discovery occasion
   Masashi Nakagawa
   *(Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center)*

48 The clinical utility of Neutrophil-to-lymphocyte ratio (NLR) as a prognostic factor for descending necrotizing mediastinitis (DNM)
   Kazuhide Sato
   *(Division of Thoracic Surgery, Department of Surgery, The Jikei University School of Medicine*  
   *(Department of Suergery, The Jikei University Katsushika Medical Center)*

49 Rare presentation of great imitator: Mycobacterium tuberculosis (MTB) intramuscular abscess
   Tomoaki Nakayama
   *(Tokyo Medical Center, Japan)*

50 A case of primary abscess of the omentum was cured with laparoscopic surgery
   Miho Shiota
   *(Department of Surgery, Kaisei Hospital)*

|             | (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University) |

51 A case of surgery implemented in response to an oncologic emergency caused by undifferentiated embryonal sarcoma  
Shimpei Takagi  
*(Digestive Organs/General Surgery Department, St. Marianna University School of Medicine, Japan)*

52 Extra-Pancreatic Recurrence of an Inflammatory Myofibroblastic Tumor  
Kenta Katsumata  
*(Division of Gastroenterological and General Surgery, St. Marianna University School of Medicine, Japan)*

53 Hassab procedure for portal hypertension with interrupted inferior vena cava; A case report  
Florian Pecquenard  
*(Department of Surgery, Nagasaki University Graduate School of Biomedical Sciences, Japan)*

54 The tongue squamous cell carcinoma Its early detection, diagnosis and surgical procedure  
Joji Sekine  
*(Nagasaki Diagnostic Pathology Clinic)*

55 Clinical factors related to the long-term oral administration of lenvatinib on differentiated thyroid cancer  
Atsumi Tamura  
*(Department of Surgery, Tokyo Medical University)*

56 Analysis of MSI-H in Triple Negative Breast Cancers as A Biomarker of Immune Checkpoint Inhibitors, Therapy  
Kanako Kurata  
*(Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University, Japan)*
A case of hereditary metachronous bilateral triple negative breast cancer with highly sensitive to carboplatin
Rongrong Wu
(The Department of Breast Surgery, Tokyo Medical University)

A case of double primary breast and ovarian cancer sensitive to platinum
Mio Yagi
(Department of Breast Oncology and Surgery, Tokyo Medical University Hospital, Japan / Department of Breast Oncology and Surgery, Tokyo Medical University, Ibaraki Medical Center / Department of Breast Oncology and Surgery, Tokyo Medical University, Hachioji Medical Center / Department of Pathology, Tokyo Medical University)

Prognostic factors for surgically resected non-small cell lung cancer with cavity formation
Shunsuke Shigefuku
(Department of Surgery, Tokyo Medical University, Japan / Department of Radiology, Tokyo Medical University, Japan / Department of Anatomic Pathology, Tokyo Medical University, Japan)

A case of intralobar pulmonary sequestration with an aberrant artery from the abdominal aorta
Kei Sano
(Department of Surgery, Division of Thoracic Surgery, The Jikei University School of Medicine)

Difficult diagnosis of multiple pulmonary nodules: a suspected case of MALT lymphoma
Hikaru Ogawa
(Department of Surgery, Division of Thoracic Surgery, The Jikei University School of Medicine)
